The examiner acknowledges the amending of claims 15-17.

Allowable Subject Matter

Claims 15-27 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 15-17 are believed to be allowable as a circuit for driving a Pockel's cell having the given node, switch, potential, and resistor locations, with accompanying limitation on the switching repetition rate of each of the switches was not found to be taught in the prior art, or to be an obvious combination of the prior art.

Claims 18-27 are allowable as they depend from allowable claims 15-17.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
